

DRAWING ANIMAL FACES

Once you've made your new balloon friend you can spice your buddy up with some custom art! For this the best marker to use for this is a regular black sharpie marker, but feel free to mix up the colors! Remember to blow on whatever you draw so it dries faster and doesn't smudge! Since it's your balloon creation you're encouraged to draw whatever you want, but on this page we'll show some simple animal features to bring your balloon animals to life!
